Bone Broth Chocolate Crunch

Taurine plus bone broth protein from grass-fed cows

Bone Broth Chocolate Crunch is a delicious and nourishing functional supplement bar that features a Paleo-friendly profile with an impressive 13 g of protein per serving. This hot cocoa-flavored bar is formulated with a chocolately oat milk coating and a crunchy chocolate protein filling. The protein blend uniquely combines grass-fed, hydrolyzed bone broth collagen protein (as HydroBEEF™) and pea protein crisps (pea protein and rice flour) to create a comprehensive and complementary amino acid profile.

Bone broth protein has a high proportion of collagen-specific amino acids that offer benefits for joint health, skin elasticity, and gut function.* Taurine is an amino acid required for a variety of metabolic processes in the body, such as normal blood pressure regulation.* Research shows that taurine may support normal blood sugar and metabolism, cardiovascular health, and antioxidant activity.*

Experience the difference with Bone Broth Chocolate Crunch

Unlike other mainstream bars, Fx Bars never use hydrogenated oils or trans fats, simple sugars (e.g., sucrose, high-fructose corn syrup), artificial sweeteners, synthetic colors, or additives. Allulose is the primary sweetener in Bone Broth Chocolate Crunch, which is found in many sweet-tasting foods like figs, maple syrup, and raisins. It has only one-tenth the calories of sucrose (table sugar) and is ideal for anyone looking to minimize sugar intake.

Recommended Use

1 bar per day

Consult with your health-care practitioner about your specific circumstances and any questions you may have regarding this product.

Benefits & Highlights

- Highly absorbable bone broth protein to support joint, skin, and gut function*
- Taurine added to support antioxidant status, metabolic health, and promote healthy aging*
- 13 g of protein per bar to support protein status*
- Only 4 g of net carbs[†] and 0 grams of sugar; sweetened with allulose, stevia extract, and monk fruit for minimal impact on blood sugar[†]
- 8 g of fiber per bar
- U.S.A manufactured in Florida from U.S. and globally sourced premium ingredients

[†]The Net Carbs for one bar is 4 g and is calculated by subtracting the dietary fiber (8 g) and other low glycemic carbohydrates (11 g from allulose) from the total carbohydrates (23 g). Individuals who monitor their carbohydrate intake may deduct these low glycemic carbohydrates from the "Total Carb" count (in the Nutrition Facts panel) due to their minimal impact on blood sugar.
